

College Park Cemetery: Neely Allen, Sr.

By: Darryl Allen

¹Neely Ethan Allen, Sr. was born June 19, 1868 and died January 5, 1932. Neely Allen resided in the 4th ward district of Houston, Texas at 1103 Wilson St. Although Mr. Allen's parents were unknown, we do know that he was a person of mixed white and black ancestry or Mulatto. Married to Mary Coleman, Neely Allen worked as a cotton laborer. According to the United States 1910 census Neely Allen had five children. Neely Allen Jr. was the eldest of the five followed by Pearl, William, Arthur, and Benjamin Allen. All of which were buried at College Park Memorial Cemetery. ²

³Neely Allen Jr. served our country as a World War I soldier. Neely Jr. was born July 29, 1897 and died from a coronary occlusion March 17, 1954. ⁴A coronary occlusion is the partial or complete obstruction of blood flow in a coronary artery. Neely Jr. lived next door to his father and made a living as a real estate dealer. ⁵William Allen was born October 29, 1888 and died July 7, 1923. William Allen served in the United States Military. ⁶Arthur Allen was born March 3, 1902 and died May 16, 1929 at 37 years of age. Arthur Allen worked at a shoe shine parlor.

³ Neely E. Allen, Jr. Death Certificate, Texas Dept. of Health Bureau of Vital Statistics, #12795

⁴ www.wikipedia.org

⁵ William Allen, Death Certificate, Texas Dept. of Health Bureau of Vital Statistics, #28362

⁶ Arthur Allen, Death Certificate, Texas Dept. of Health Bureau of Vital Statistics, #25904

Neely Allen Sr. was born on a significant date in Texas history. June 19th is the day we celebrate the announcement of the abolition of slavery. I believe that the Allen family was a very close knit family because they all stayed in the same general area and were all buried at College Memorial Park Cemetery. Neely Allen Sr. lived through the great depression and World War I and passed away at the age of 64.

1959

Price - Hunt

Ethel Mae Price Pritchett, was born on October 6, 1904 to the parents of Wilfred and Melissa Price, she had one sister Hazel Price Jackson. She and her family lived in 3rd Ward Houston, Texas at 2319 Dowling St. Ethel earned a living as a school teacher. She had no children and was married to J.J Pritchett. Ethel died at the age of sixty-five on September 10, 1969 from cardiac arrest caused by sarcoma of the uterus. Ethel was preceded in death by her parents Wilfred and Melissa Price, her sister Hazel Price Jackson, and grand parents Dayton and Eliza Hunt.

Melissa Ann Price was born on May 6, 1878 in Harrisburg, Texas, to the parents of Dayton and Eliza Hunt. She and her family later moved to 3rd Ward Houston, Texas. Along with her daughter she also worked for the school district as a school teacher. She was called to rest on November 25, 1967. Her immediate cause of death was heart disease with cardiac failure, heart disease, arteriosclerotic due to hypertensive and hypertrophy.

Dayton Hunt was born on March 11, 1967 to the parents of Norris and Letha Hunt, he and his wife lived at 23016 Live Oak St, Houston, Texas. Dayton worked as a laborer for a company called S. P. Ry where he later retired. Dayton died on April 6, 1935 from apoplexy which is a "uncontrolled bleeding into the brain" He and his family lay rest at College Memorial Park Cemetery.

STATE OF TEXAS 101-01-1 101-01 CERTIFICATE OF DEATH 420-0 25 728777

STATE FILE NO. 728777

1. PLACE OF DEATH
a. COUNTY Harris

2. USUAL RESIDENCE (Where deceased lived, if institution, residence, or before admission)
a. STATE TEXAS b. COUNTY Harris

3. CITY OR TOWN (If outside city limits, give precinct no.)
Houston

4. STREET ADDRESS (If rural, give location)
2319 Dowling Street

5. IS PLACE OF DEATH INSIDE CITY LIMITS?
YES ☒ NO ☐

6. NAME OF DECEASED (Type or print)
Melissa Ann Price

7. DATE OF DEATH
11-24-67

8. SEX Female

9. COLOR OR RACE Negro

10. USUAL OCCUPATION (Give kind of work done)
Teacher School Dist.

11. BIRTHPLACE (State or foreign country)
Harrisburg, Texas

12. CITIZEN OF WHAT COUNTRY?
USA

13. DATE OF BIRTH
5-6-1878

14. AGE (In years, months, and days)
89

15. WAS DECEASED EVER IN U.S. ARMED FORCES?
No

16. SOCIAL SECURITY NO.
None

17. INFORMANT
Miss Ethel M. Price

18. CAUSE OF DEATH (Enter only one cause per line for (a), (b), and (c).)
PART I. DEATH WAS CAUSED BY:
IMMEDIATE CAUSE (a) Heart Disease with Cardiac Failure
Heart Disease, Arteriosclerotic,
DUE TO (b) Hypertensive with Hypertrophy
DUE TO (c) Arteriosclerosis, Generalized

19. WAS AUTOPSY PERFORMED?
NO

20. TIME OF INJURY
a. HOUR 11:00 a.m. b. MONTH 11 c. DAY 24

21. PLACE OF INJURY (e.g., in or about home, farm, factory, street, office building, etc.)
8525 Stella Link Road

22. CITY, TOWN, OR LOCATION
Houston, Texas 77025

College Park Cemetery

*Mrs. Louisa Long Jackson
&
Family*

March 30, 1860 – February 18, 1925

By: Bernice Burrell

College Memorial Park Cemetery

Mrs. Louisa Long Jackson

On March 30th of 1860 in Louisiana Mr. Mose and Mrs. Elvira had a beautiful daughter. They named Louisa Long.¹ As her life progressed she moved to Tyler Texas where she married a man named Thomas Jackson. Together they had a daughter that they named Mabell Jackson on Dec. 25th 1886². After having a child together they moved to 1002 Palmer St 3rd ward Houston TX³. Where he worked as a blacksmith. Through out her life time she lived through a lot of history. She lived through

.The Great Depression 1929-1940

.Spanish War 1898

.Women rights to vote 1920

And ect. In the year of 1910 Mr. and Mrs. Jackson lost their 24 yr old daughter to Consumption. Not long after on Feb 18, 1925 Mrs. Louisa Jackson lost her life to a disease called Pellagra that is a very bad skin disease.

Definition of Pellagra

Best Healthy Diet Snacks Slideshow

Pellagra: A disease due to deficiency of niacin, a B-complex vitamin. Pellagra is the "disease of the four D's" –

- Diarrhea;
- Dermatitis: A scaly rash on skin exposed to light or trauma;
- Dementia: Mental disorientation, delusions and depression; and
- Death.

Other features are ulcerations within the mouth (glossitis), nausea, vomiting, seizures and balance disorder (ataxia).

Pellagra is now rare in developed countries which enjoy balanced diets and fortified foods, but it was once a huge public health problem in the US. Three million Americans contracted pellagra and 100,000 died of it from 1906-40. Pellagra was especially a problem for the poor in the South whose meals usually consisted of the "three M's": meat (pork fatback), molasses, and meal (cornmeal). Today pellagra continues to be a problem in developing countries where there is significant malnutrition or where niacin-deficient foods such as corn and rice are the primary sources of nutrition.

The puzzle of pellagra was solved by Dr. Joseph Goldberger. Dr. Goldberger was assigned in 1914 by the US Public Health Service to the South to deal with pellagra. After inspecting Southern orphanages, mental hospitals and prisons, Goldberger made the pivotal observation that the malnourished inmates of those institutions often developed pellagra while the better-fed staff did not. Pellagra, he deduced, did not arise from germs, as was commonly believed, but rather from a nutritional deficiency. To prove this, Dr. Goldberger, his assistants and even his wife engaged in experiments called "filthy parties." They injected themselves with blood or ingested the scabs, feces and body fluids of patients. None developed pellagra. He also did decisive experiments with Mississippi prison inmates (who "volunteered" in return for a full pardon). Dr. Goldberger fed them a poor diet that he believed caused pellagra and within months, many developed the disease. He then added meat, fresh vegetables and milk to their diet and reversed all of the signs and symptoms of pellagra. Dr. Goldberger never identified the dietary principle that had this extraordinary effect. He died in 1929 (of kidney cancer). Eight years later, the factor was found to be niacin. This discovery was made in 1937 at the University of Wisconsin. Niacin is abundant in red meat, fish, poultry, and green leafy vegetables. Niacin can prevent pellagra (and can cure it).

The name "pellagra" comes from the Italian "pelle", skin + "agra", rough = rough skin, referring to the skin problems in pellagra.

Dear Yahoo!:

Characters in both *Angela's Ashes* and *Moulin Rouge* die of consumption. What is it?

Vanessa
Houston, Texas

Dear Vanessa:

We had seen the deadly disease, consumption, mentioned in historical books or movies, but to tell the truth, we had no idea what it was. An informative page from [Modern Drug Discovery](#) solved the medical mystery.

Consumption is an old name for tuberculosis (TB) that describes how the illness wastes away or consumes its victims. TB is "an ancient enemy" that has plagued humankind for more than five thousand years. The Greeks called it phthisis, and Hippocrates advised his medical students against treating it, because it was almost always deadly, and a dead patient was bad for business.

Caused by a highly contagious [bacterial infection](#), TB is blamed for 20% of the deaths in 17th-century London and 30% of those in 19th-century Paris (as depicted in *Moulin Rouge*). In those days, the disease proved deadly for about 80% of its victims. It's estimated that TB has killed over 1 billion people in the last two centuries.

In the past, patients were usually sent to a sanatorium, where a healthy climate (fresh air) and good nutrition were believed to combat the infection. Later, pneumothorax was used, a treatment that collapses the lung then allows it to heal. In the 1940s, advances in science led to the development of several drugs that proved effective against TB. The incidence of the disease began to drop, and it was believed that TB would be extinct by 2010.

Unfortunately, TB is far from being a disease of the [past](#). An effective course of drug therapy lasts 6-8 months, and many patients discontinue the antibiotics before completing the whole regimen. To make matters worse, the TB strain continues to mutate and evolve, becoming more and more drug-resistant. And poverty and the AIDS epidemic, which weakens the immune system making it ripe for attack, have also helped lead to a resurgence of the [disease](#). Every year, about 8 million people contract TB and 3 million die from it.

814 ANDREWS

PAULINE KEMP

By Chancie Clay

I AM CURRENTLY DOING A REPORT ON AN AFRICAN WOMAN BY THE NAME OF PAULINE KEMP. I WAS PREVIOUSLY DOING A REPORT ON HER DAUGHTER LUCY KEMP. BUT I COULDN'T PULL UP ANY INFORMATION CONCERNING HER. SHE WAS BORN IN JULY 1862 TO MR. JOHN BROWN & MS. SUSY ADAMS IN HOUSTON, TEXAS. AROUND 1878 SHE MARRIED A MAN NAMED LOUIS KEMP ALSO KNOWN AS LORIS KEMP.¹ THEY LIVED ON 1112 ANDREWS ST WHICH IS LOCATED IN FOURTH WARD. THEY WAS MARRIED FOR 22 YEARS SHE WAS 37 AT THE TIME. SHE HAD 2 CHILDREN, ONE GRANDDAUGHTER HER NAME WAS CLIFFORD KEMP. FOR SOME REASON I DON'T KNOW WHY THE GRANDCHILD HAD A BOY'S NAME. SHE DIDN'T ATTEND SCHOOL, COULDN'T READ OR WRITE, SPOKE ENGLISH, AND WENT 3 MONTHS WITHOUT A JOB.

A LOT OF THINGS OCCURRED IN THE SAME YEAR AND MONTH SHE WAS BORN.²

- CIVIL WAR
- PRESIDENT LINCOLN SIGNS THE PACIFIC RAILWAY ACT
- UNITED STATES PUBLIC DEBT \$500 MILLION
- SOUTH CAROLINA REGIMENT
- PRESIDENT LINCOLN PRESENTS THE EMANCIPATION PROCLAMATION

IN OCTOBER 1, 1914 SHE DIED AT THE AGE OF 50 YEARS OLD FROM CHRONIC BRIGHT'S DISEASE³. THE BATTLE OF ARRAS LED BY LOUIS MAUD'HUY.⁴ OCTOBER 2, 1914 HER BODY WAS BURIED AT THE COLLEGE MEMORIAL PARK CEMETARY LOCATED ON 1017 SAN FELIPE. THE UNDERTAKER WAS E. JACKSON AND REGISTRAR O. C. GERHARDT.⁵

¹ 1900 CENSUS, CITY OF HOUSTON, ED 72, SHEET 9B, WARD 4, JUNE 5 1894

² CIVIL WAR TIMELINE/CHRONOLOGY JULY 1862 (blueandgraytrail.com/year/186207)

³ THE INFECTION OF THE NEPHRONS CAN LAST FOR WEEKS OR YEARS. SYMPTOMS ARE HEADACHE, FEVER, AND SLIGHT SWELLING. UNTREATED DISEASE CAN BE DANGEROUS AND FATAL. (www.associatedcontent.com/article/83892/what_is_brights_disease.html)

⁴ OCT. 1, 1914 - BETWEEN ARRAS & LENS, FRANCE ATTEMPT BY THE FRENCH ARMY TO OUTFLANK THE GERMAN ARMY FOR MOVEMENT ACROSS THE ENGLISH CHANNEL DURING THE RACE TO THE SEA ([en.wikipedia.org/Battle of Arras 1914](http://en.wikipedia.org/Battle_of_Arras_1914))

⁵ PAULINE KEMP DEATH CERTIFICATE, TEXAS STATE BOARD OF HEALTH #1382(20884)

What is Bright's Disease?

Bright's disease is actually an old, out-of-date term that may still be used to refer to various forms of kidney disease. The more commonly used term is nephritis and it can be acute or chronic and treatment involves professional medical care. This article provides an overview of the condition(s) known as nephritis and Bright's

disease, including symptoms and treatment options, and suggestions for further study.

Richard Bright of London, England was the first person to notice the relation between certain kidney changes, albumen in the urine and dropsy. This was in 1827. This is how kidney disease or nephritis and glomerulonephritis have come to be referred to as Bright's disease. The moniker has fallen out of favor in recent years, most physicians preferring to use the more specific medical terminology. It may still be used, however, to describe a range of conditions that may affect the kidneys.

This condition can be acute - appearing rapidly, sub-acute - appearing in several days to two weeks, or chronic - appearing insidiously over weeks, months or years. Regardless, the condition is caused by an infection or an inflammation of the nephrons, the smallest functional units of the kidneys, made up of a tight network of capillaries. Often this is caused by a streptococcus or other viral infection elsewhere in the body and while the kidney does not become infected, it is affected the infection occurring elsewhere.

The symptoms of a severe attack of this condition may come on rapidly and include headache, loss of appetite, vomiting, and fever. Also edema, or a slight swelling of the face and hands may be present. Shortness of breath, fatigue, and vision disturbances may also be a symptom of these kidney diseases.

The urine will appear dark and smoky or bloody colored and will test positive for a large amount of albumen. If left untreated, the severe cases of this condition can be rather dangerous, and potentially fatal. (One famous American who died of Bright's disease was the poet, Emily Dickinson).
